ation is: the systematic, comprehensive, and accurate gathering of laws, processes, and institutions related to the conduct of elections; the overall electoral environment; the impartial and professional; and the drawing of conclusions about the character of electoral; highest standards for accuracy of information and impartiality of

observation, the Center puts together a core team of experts and observers throughout the country to analyze election laws, election rules, campaign rules, election dispute processes, and whether the principles associated with voting and civic participation are upheld, including for various populations. The observers work in teams, meeting hundreds of times with election officials, journalists, and members of civil society. The
